## 1. INTRODUCTION

### 1.1 OBJECTIVE

The objective of this project is to simplify the task of maintaining records of the employees of Company. To develop an well designed database to store employee information Provides full functional reports to management of Company Helps in maintaining the computerized employee details.

### 1.2 PROJECT DESCRIPTION

Employee Management System is a distributed application, developed to maintain the details of employees working in any organization. The objective of this project is to provide a comprehensive approach towards the management of employee information. The records are maintained in registers.

The users of this web application includes,

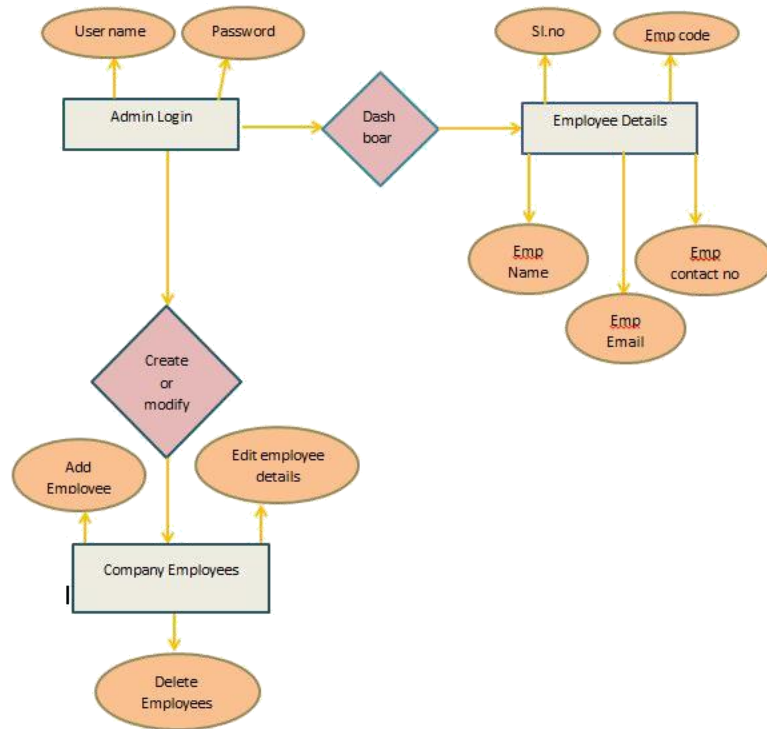

- Administrator

The administrator will be the authorized person to upload, update and remove details on their employees. This person is using particular userid and password for login.

## 2. SYSTEM DESIGN

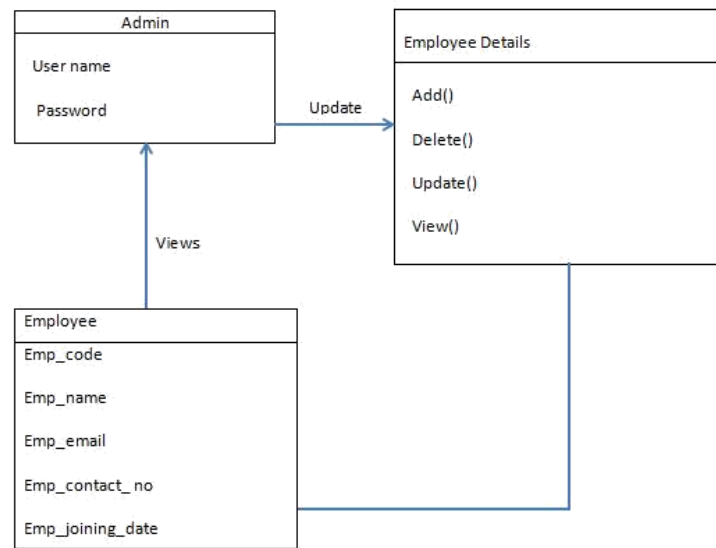

### 2.2 ER DIAGRAM

An Entity–relationship model (ER model) describes the structure of a database with the help of a diagram, which is known as Entity Relationship Diagram (ER Diagram). An ER model is a design or blueprint of a database.

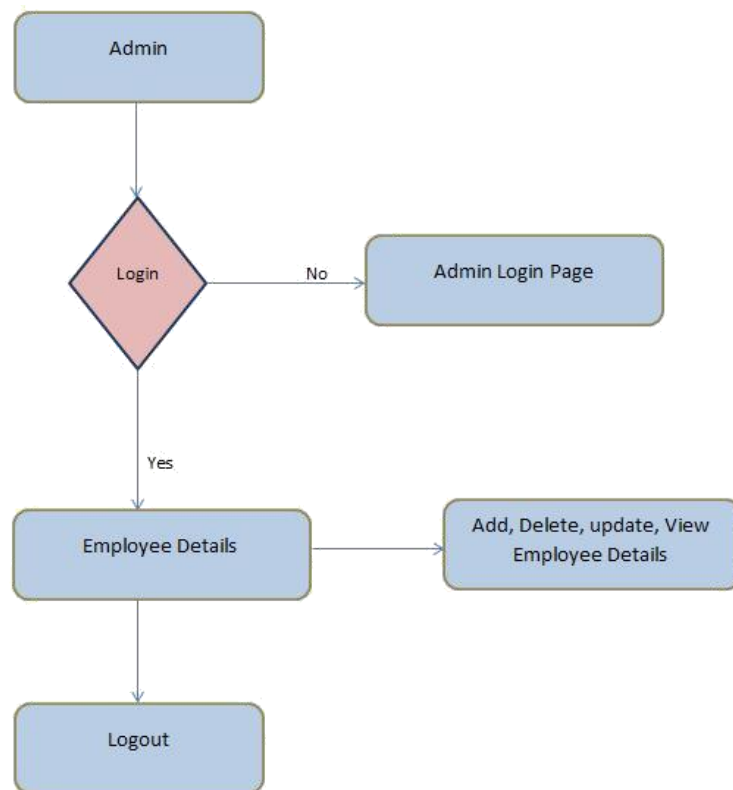

## 2.3 CLASS DIAGRAM

A class diagram is a type of static structure diagram that describes the structure of a system by showing the system's classes, their attributes, operations or methods, and the relationships among objects.

## 2.4 FLOW CHART

A flowchart is a diagram that describes a process or operation. It includes multiple steps, which the process "flows" through from start to finish. Common uses for flowcharts include developing business plans, defining troubleshooting steps, and designing mathematical algorithms.

### 3. SYSTEM REQUIRMENTS

#### 3.1 SOFTWARE REQUIREMENTS

Operating System: Windows 10

Front End : HTML, CSS, JavaScript, Bootstrap, Ajax

Back End : PHP, MySQL

Code Editor : Notepad++, Visual Studio Code

Software : XAMPP Server

Server : Apache Web

Browser : Google Chrome

## 3.2 HARDWARE REQUIREMENTS

RAM	:	4 GB
Processor	:	1GHz or more
Hard Drive	:	1 TB hard disk
Network Connectivity	:	LAN or Wi-Fi

## 4. APPENDICES

### 3.1 DATABASE TABLES

#### 1. TABLE-ADMIN

The screenshot shows a database management interface with a toolbar at the top containing buttons for Browse, Structure, SQL, Search, Insert, Export, Import, Privileges, Operations, Tracking, and Triggers. Below the toolbar, there are tabs for 'Table structure' and 'Relation view'. The 'Table structure' tab is active, displaying a table with the following columns: #, Name, Type, Collation, Attributes, Null, Default, Comments, Extra, and Action. The table contains three rows of data:

#	Name	Type	Collation	Attributes	Null	Default	Comments	Extra	Action
1	ID	int(11)			No	None		AUTO_INCREMENT	Change Drop More
2	AdminuserName	varchar(50)	latin1_swedish_ci		Yes	NULL			Change Drop More
3	Password	varchar(45)	latin1_swedish_ci		Yes	NULL			Change Drop More

Below the table, there are several options and actions: 'Check all', 'With selected:', 'Browse', 'Change', 'Drop', 'Primary', 'Unique', 'Index', 'Spatial', 'Fulltext', 'Add to central columns', and 'Remove from central columns'.

#### 2. TABLE-EMPLOYEE\_DETAILS

Server: 127.0.0.1 » Database: ermsdb » Table: employeeedetail

    </div>
</body>

</html>

```

### 3. connection.php

```
<?php
$con=mysqli_connect("Localhost", "root", "",
"ermsdb"); if(mysqli_connect_errno()){
echo "Connection Fail".mysqli_connect_error();
}

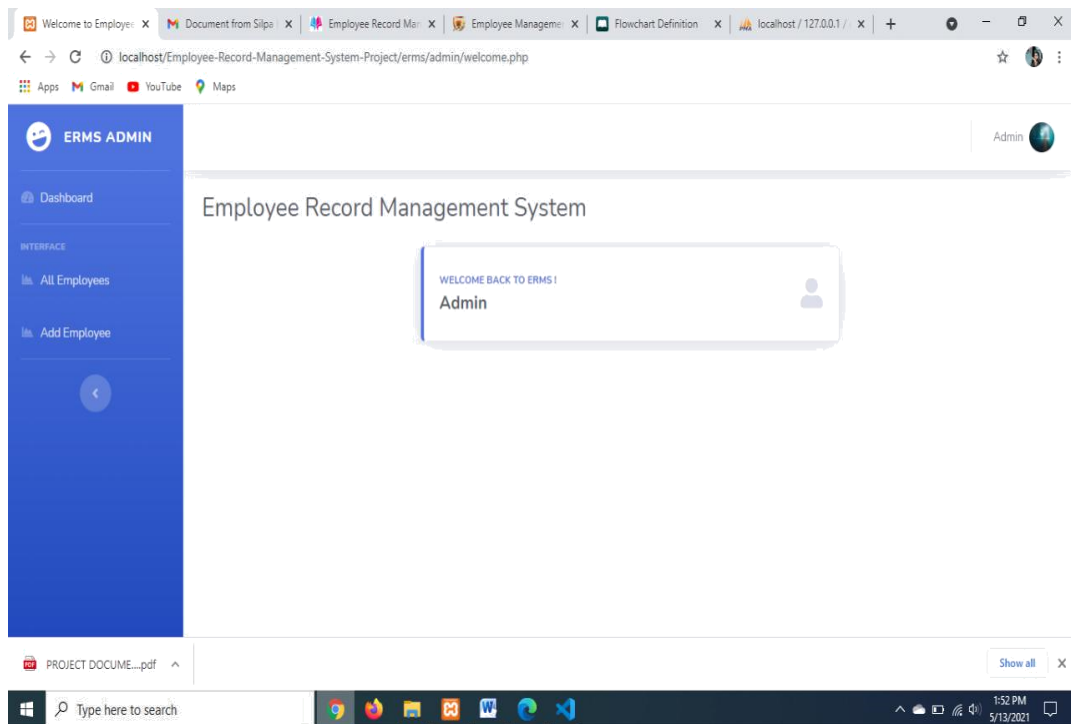

?>
```

## 4.3 SCREENSHOTS

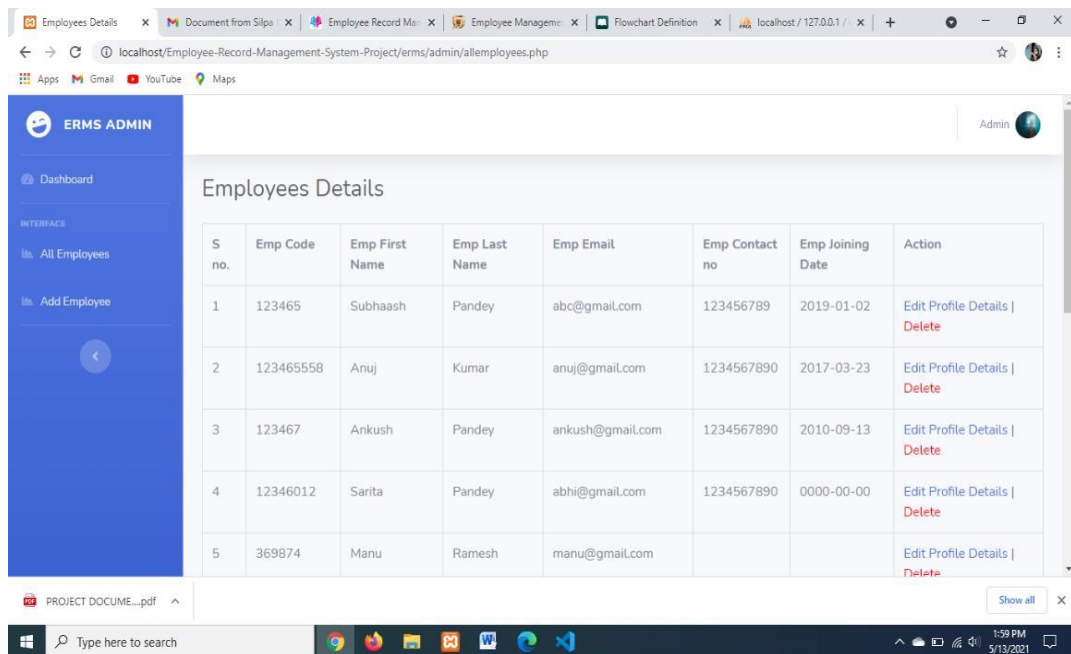

### 1. Home page

### 2. Admin Login page

### 3. Viewing of employee details

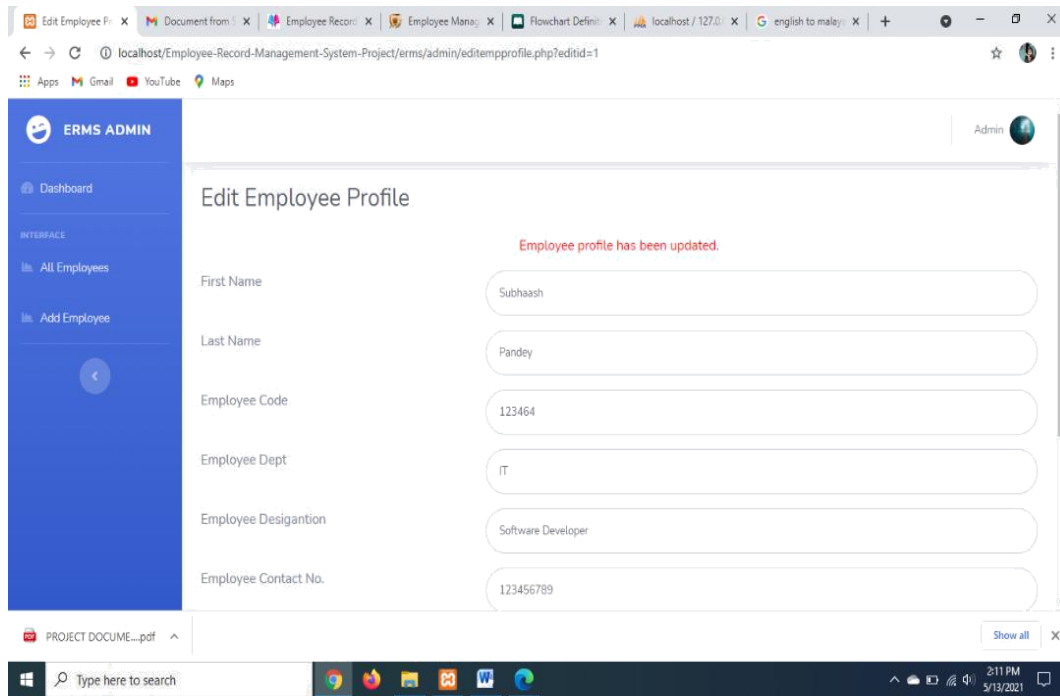

## 4. Employee details edited

The screenshot shows a web browser window with the URL `localhost/Employee-Record-Management-System-Project/erms/admin/editempprofile.php?editid=1`. The page has a blue sidebar with a back arrow and the text 'Add Employee'. The main content area is a form with the following fields and values:

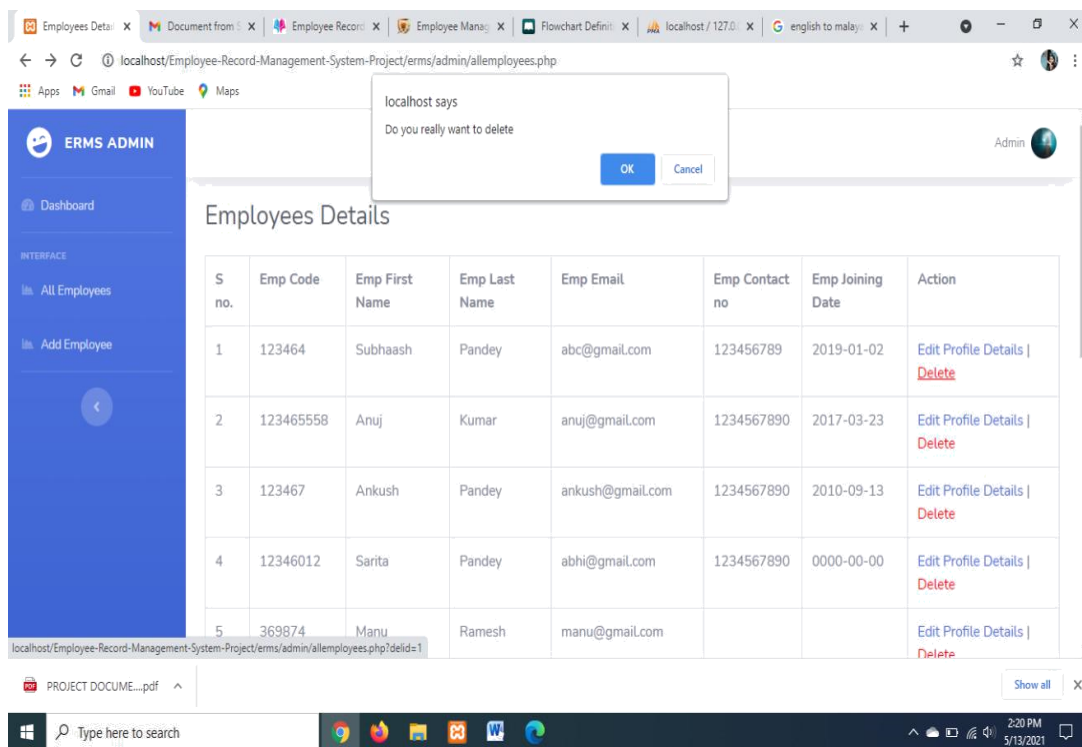

Field	Value
Employee Code	123464
Employee Dept	IT
Employee Designation	Software Developer
Employee Contact No.	123456789
Email	abc@gmail.com
Employee Joining Date(yyyy-mm-dd)	2019-01-02
Gender	<input checked="" type="radio"/> Male <input type="radio"/> Female

An 'Update' button is located at the bottom right of the form. The Windows taskbar at the bottom shows the time as 2:11 PM on 5/13/2021.

## 5. Employee details Updated

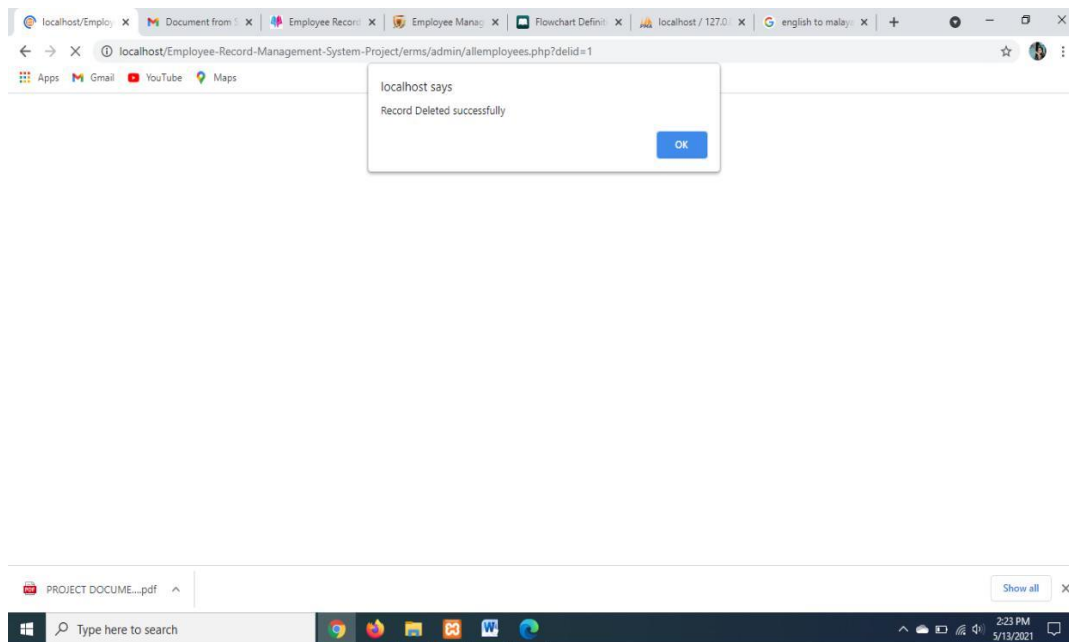

## 6. Employee details Remove

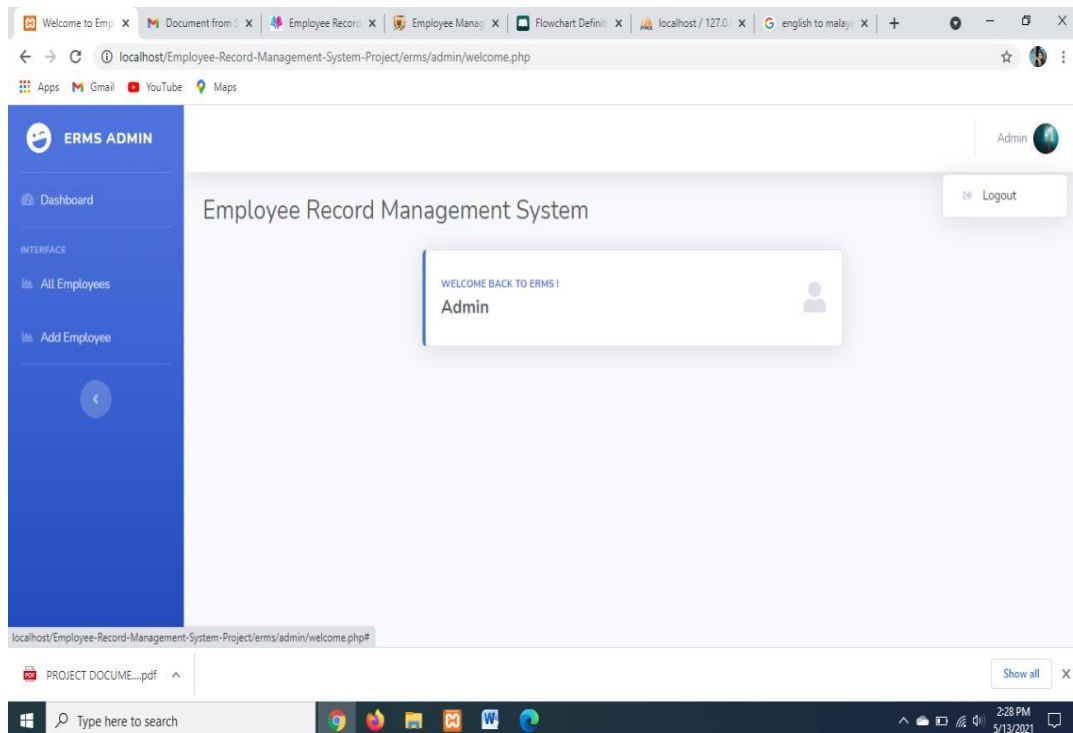

## 7. Employee details will be removed

## 8. Admin Logout

#### **4 CONCLUSION**

This project is used for computerizing employee management work in companies. The software is capable of easy storage of information related to employee through database.
